

Summary of selected port tariff increases

We include below a table of increases over the last three years which, whilst not substantive with some exceptions, many are over CPI and continue to be of great concern to members.

This is because of the difficulties that were experienced, particularly in 2009 with the challenges posed by the global financial

crisis and the massive cost reduction exercises that our members had to engage in to survive.

Unless every effort is made to contain such costs commensurate with the need to invest in new long term infrastructure, Australia's international trade competitiveness will be put at risk.

Port	Service	Increase	Effective	Previous	Effective	Previous	Effective
Abbot Point	Harbour Dues	~	~	3.70%	01-Jul-09	~	~
